

## aixigo presents its high performance API services for digital portfolio management in Europe

**Aachen, March 2017** – After the Aachen-based software company presented its newly developed High Performance API Services in London at Finovate Europe in February, other events are now taking place.

On 5 and 6 April aixigo will be present at the EXEC in Berlin the special features of its portfolio management system to the public. The EXEC is a combination of the event formats EXECfintech and EXECinsurtech and will be held in 2017 for the first time in two days.

The “next generation of financial services providers” in Frankfurt will continue on 25 April. In 2016 aixigo presented the workflow of a completely digital, individual and retailable asset management. This year Christian Friedrich (CEO aixigo AG) is looking forward to presenting the latest developments to the audience in Frankfurt .

In May and June further events were held. On 9 May the DKF, the 7th D-A-C-H Congress for Financial Information, will take place in Munich. On 12 and 13 June, another Finovate format will be released: FinDEVr in London will focus on technology and development.
